

January 22, 1973

SPEAKER: The chair would like to break in at this time. In the south balcony we have 25 5th and 6th grade students from Randolph school in Lincoln. Is that correct, Randolph School. Their teacher is Mrs. Thompson and Mrs. Smalkin. I believe they are in Senator Luedtke's district. Will you please stand and be recognized?

CLERK: Mr. President, one new bill. Read title. LB 263  
That's all, Mr. President.

SPEAKER: We are now ready to proceed to bills on General File.  
Senator Nore:

SENATOR NORE: Mr. President, a point of personal privilege.

SPEAKER: State your point.

SENATOR NORE: I would like to ask something about the activities of the Executive Board of the Legislature, their actions. I think it would be no more than fair that they discuss some of the changes that are being made. If they would bring them out here and let us know about them before reading about them in the paper. The other day, I am not opposing these changes, I noticed we got some quite large salary increases and most of us here knew nothing about it and I understand about one-half of the Executive Board, it must have been a little less than half, were not even present on these acts in particular. I have always complained and voted against bills giving the Executive Board more power. This was clear back in '65 when this all started and I think its dangerous. Now this morning we passed a bill giving the Executive Board more power and pretty soon we won't need only the Executive Board, the rest of us can stay home

(End of Belt #3)
